SKILLS & LANGUAGES

Front-end: HTML5, CSS, Javascript, Bootstrap

Back-end: MySQL, MongoDB, Express, ReactJS, Node, Handlebars

PROJECTS

Movie Giphy

<https://uwlryoung.github.io/movie-giphy/>

Users may search a movie and the web app will return a movie summary along with gifs related to the movie and actors/actresses. My role in this project was to import the movie's synopsis and display that.

Pet Spot

<https://shielded-beach-29867-5efce834725b.herokuapp.com/>

Users may search for a pet and upload their own pets to put up for adoption. My role in this project was to display the imported user data.

Rateit

<https://rateit-e0014fad4ba9.herokuapp.com/>

Users may search a programming tool and read/upload comments about its usefulness. My role in this project was to implement the star rating functionality.

WORK EXPERIENCE

MGM National Harbor, *Poker Dealer*

November 2016 — Current

Greet and service guests. Handle cash and chips at a professional pace. Enforce rules and conduct games including Omaha, triple draw, and Stud, in accordance with departmental procedures and state regulations. Maintain the tempo and productivity of the game with minimal disturbance. Commit to upholding a positive work environment while incorporating constructive feedback.
